

Which rowing shell is best for me?

11/4/2020

Weight ranges are a guide only. Bear in mind more or less weight will affect a boat's stability and alter handling, especially in rough water and wind.

Doubles, Quad and Advanced boats - you must be checked out to use these boats.

Format	Class	Name	Code letter	Target weight range*	Location
Single	Advanced, flat water	FluiDesign Super Heavy	U	200 - 250	
Single	Advanced, flat water	Hudson Heavy	A	175 - 210
